

Ak Asset Management Electric And Autonomous Technologies Variable Fund

Invest in local and foreign companies operating in the autonomous driving and electric vehicle sectors as well as those producing technology for them!

• At Akbank and All Banks

Are You Ready for Full Autonomous Drive?

Ak Asset Management Electric Vehicle and Autonomous Vehicle Technologies fund offers investment opportunity for the local and foreign companies operating in the autonomous drive and electric vehicle sectors as well as those producing technology for them!

It invests in the companies operating in areas such as electric and autonomous vehicle production, semi-conductor, battery, charging technologies, and software used in these vehicles.

The fund offers the opportunity of investing in selected companies providing solutions in the relevant areas.

The fund allows you to invest easily in companies which operate in the fast-growing electric vehicles sector and manufacture products and solutions formed in and around the area of autonomous/self-directed drive technology. It is considered that such technologies shaping the future of automobile sector will shine out in the long term.

It is a demanding job to invest individually in all of these companies. In contrast, the fund offers the convenience of investing in the leading companies of the export sector a single transaction from your own bank.

Advantages of the Fund

- ✓ You can purchase and sell from any bank you want.
- ✓ You invest in companies publicly-traded in domestic and foreign stock markets with one transaction.
